

NISHANT PANDEY

Prayagraj, Uttar Pradesh

 github.com/Nishant-coder425 |  [linkedin.com/in/nishant-pandey425/](https://www.linkedin.com/in/nishant-pandey425/)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on expertise in 3 end-to-end web applications using React.js, Node.js, and Core Java. Skilled in optimizing database architectures (20% latency reduction), improving page load speeds (25%), DSA, and Agile team collaboration.

EDUCATION

United College of Engineering and Research, Allahabad Bachelors of Technology in Computer Science and Engineering	July 2022 - May 2026 Percentage: 78.9%
Central Academy School Intermediate (CBSE)	April 2021 - April 2022 Percentage: 88.8%
Central Academy School High School (CBSE)	April 2019 - April 2020 Percentage: 80.16%

PROFESSIONAL EXPERIENCE

Frontend Developer Intern Indian Infotech	June 2025 - December 2025
- Designed and developed responsive web applications using React.js, HTML, CSS, and JavaScript. - Built reusable UI components and optimized performance to improve maintainability and cross-browser usability. - Integrated frontend interfaces with RESTful APIs while collaborating in an agile, cross-functional team.	

TECHNICAL SKILLS AND INTERESTS

- Programming Languages:** Java, Python, JavaScript
- Web & Backend Technologies:** HTML5, CSS3, MySQL, React.js, Node.js, RESTful APIs, Bootstrap, Redux
- Database:** SQL, MySQL, MongoDB
- Tools & Libraries:** Git & GitHub, Docker, Postman,
- Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, SDLC, STLC, Agile Methodologies
- Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Communication

PROJECTS

HomeLens - Real Estate Platform
- Built an interactive platform with 50+ property listings, reducing search latency by 20% via optimized database routing.. - Developed a mobile-first UI with TailwindCSS, improving cross-device rendering speed by 15%. - Integrated secure backend APIs with advanced multi-parameter search and 100% uptime during testing.

Blog Management System
- Architected a full-stack Node.js/MongoDB blogging app capable of handling 200+ concurrent user sessions. - Implemented CRUD operations securing data storage for 100+ user profiles and articles. - Delivered an optimized front-end interface achieving 25% faster page load times vs. standard baseline models.

Tic Tac Toe Game
- Programmed a Core Java logic-based game using 2D arrays and conditionals to manage 100% of valid game states. - Applied OOP's principles (encapsulation, abstraction) to structure the codebase, decreasing code redundancy by 30%. - Ensured zero execution errors and accurate win/draw detection across 50+ automated test cases.

CERTIFICATION

- IBM SkillsBuild | Generative AI Project-Based Learning:** Completed hands-on training on AI model implementation and deployment using real-world datasets.
- Techkriti | Backend Development Certification:** Certified in server-side programming and scalable RESTful architecture design.
- College Summer Training | Core Java:** Mastered OOP, multithreading, and real-time debugging techniques for robust application development.

LEADERSHIP AND ACHIEVEMENTS

- Delivered **5+ technical presentations** at college events and competitions
- Led and coordinated **3+ technical projects** from requirement analysis to deployment
